OMIX-ADA, Inc.

OWN A JEEP?

The toughest four letter word on wheels. Are you looking for a parts source rugged enough to match your off the beaten path sense of adventure? With more than 15,000 unique part numbers from brands like Omix-ADA®, Rugged Ridge®, Alloy USA®, Outland Automotive®, ORV™ Suspension and Precision Gear®, consider this your trail guide to the 4x4 of your dreams. A go anywhere, anytime, in any weather vehicle. Go ahead and smile, because it's going to take a lot of courage not to be cocky when you own a Jeep® like that.

WHO WE ARE

Omix-ADA, Inc.® is more than just a parts manufacturer, we're a community of enthusiasts dedicated to producing the finest in off road solutions. Our products have been propelling four-wheel drive vehicles down highways, back roads and over the world's roughest terrain for over a decade. Omix-ADA's® team of engineers have developed, tested and trail ridden thousands of new products until they were perfected for you.

AWARD WINNING DESIGNS

More than 2,500 new products are displayed at the SEMA Show every year. Groups of journalists and industry experts are charged with the task of judging the most innovative new products introduced into the automotive industry. Omix-ADA® emerged as one of the most decorated companies in the off road sector, and has won numerous awards over the years. The legacy still continues.

LICENSED PARTS

Why have we put so much time and energy into developing the most expansive collection of Jeep® parts available under one roof? Because the items bearing our logo are more than just parts, they are built with a legacy and heritage in mind. This is why we have been authorized to use the "MOPAR Authentic Restoration" and "MOPAR Official Licensed Product" logos for the more than 30 licensed parts we produce. We take pride in being one of the few manufacturers strong enough to stand behind the legendary Jeep® name.

THE OMIX-ADA® BRANDS

OMIX-ADA, Inc.

XHD MODULAR BUMPER SYSTEM

THE MOST ADVANCED, TOUGHEST, MOST FLEXIBLE BUMPER SYSTEM EVER CREATED!

No other bumper can give your Jeep® this many looks. Modular design provides dozens of different looks and styles. You can build the exact bumper of your choice! Custom designed for the 1976-2006 Jeep® Wrangler & CJ, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coat steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look.

1. CHOOSE YOUR PAINT 2. PICK YOUR WHEELS 3. SET YOUR LIFT 4. DESIGN YOUR BUMPER

XHD REAR BUMPER

Make the most of your rear bumper with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. Special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Tire Carrier and you can hold up to a 35" tire.

Internal inner structure provides strength and a durable location for the included D-Rings

The Massive Tapered Greasable Roller Bearing Hinge Supports Up To a 35" Tire.

Over Center Latching Mechanism Keeps Your Carrier Secure

D-rings attach securely to the frame of the vehicle for a rock solid recovery mounting point.

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat to grab your gear, than hassling with the tire carrier? The Rugged Ridge® Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge® XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

RRC ROCK CRAWLING BUMPERS

Introducing the toughest, most durable off-road tube bumpers ever made! The Rugged Ridge® Rock Crawling Bumpers (RRC) feature heavy-duty .120 wall 2" steel tubing treated with a special "E-Coating" and then dual stage powder-coated to ensure long life and a no-rust finish. These overbuilt tube bumpers not only look good but they are built to last! All RRC designs have been developed with true off-road enthusiasts in mind. From the reinforced welds to the built-in D-ring attachments, these bumpers and side guards are built to take what ever the trail throws at you.

RRC FRONT GRILLE GUARDS

The RRC Front Grille Guard is an easy to install front bumper system that offers an expanded opening for use with a winch (winch plate not included) or with up to four off-road lights. The RRC side supports elevate the tube upwards to provide fender protection while not altering the side clearance. Two reinforced D-ring attachments allow for easy use of optional D-rings (part no. 11235.01).

RRC REAR BUMPERS

Rugged Ridge® offers two RRC bumper options for the rear of your Jeep®. Both options work off a similar frame mounted platform that features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. All RRC Rear Bumpers also feature a reinforced receiver hitch that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). The heavy-duty rear tire carrier model mounts your tire off the rear bumper taking the load off your tailgate. With a reinforced grease fitting and special latching mechanism, this tire carrier is capable of holding up to a 35" tire.

TIRE CARRIER RECOVERY (TCR) BAG

The TCR bag has been designed to mount to Rugged Ridge® RRC, XHD & Classic rear tire carrier bumpers. This bag allows the storage of all your recovery gear between the A-frame uprights on your rear tire carrier. Constructed of weather resistant material & features a zipper flap to help protect your gear from the environment. Attaches easily with 4 heavy-duty nylon straps that allow for quick removal and transport.

RRC SIDE ARMOR

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge®'s Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. YJ and TJ models require drilling. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

Raised Winch Mount Plate	Specially designed for 76-86 CJ Tube front Bumpers NEW	11238.13			

All Rugged Ridge® Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. No other tubular bumper manufacturer goes to the expense of smooth grinding their welds. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Finally, all Rugged Ridge® Bumpers feature welded end caps rather than plastic end caps. Gone are the days of constantly replacing those lost tube bumper end caps after a long day on the trail.

REAR TUBE BUMPERS FOR 1955-2006 JEEP®

Rear Bumpers have a larger 17" rear opening allowing the use of oversized tires (up to 31") on the factory spare tire mount. This is a Rugged Ridge® exclusive! Rugged Ridge® Rear Tube Bumpers also feature a frame mounted hitch option that allows for lightweight towing (2,000lb towing weight, 200lb tongue weight capacity). Most other rear tube bumpers with integrated hitch boxes do not recommend towing, therefore making the hitch box virtually useless. End caps are welded rather than using plastic end caps that fall out or melt.

HEAVY-DUTY ROCK CRAWLING BUMPERS

11545.01 Heavy-Duty Front Rock Crawling Bumper

The front bumper is a winch ready design that can accommodate any winch (winch mounting plate not included). E-Coat undercoating with a powder coat finish for the ultimate in rust protection and durability. Two welded D-ring tabs allow for easy installation of optional D-rings providing a secure pulling point. Sloped ends allow for greater off-road clearance and a great look. Rear Bumper has an accessory hitch box (not designed for towing) to mount optional accessories. This tough bumper set can take what the trail throws at you!

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge® tubular tough duty side steps. Rugged Ridge® Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge® step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge® painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge® Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. 1976-06 models feature frame mount design which may require drilling.

ALL TERRAIN FENDER FLARES

Get that aggressive off road look with the NEW Rugged Ridge® All Terrain Fender Flare! These 6" flares feature a stylish design while protecting your vehicles paint from flying rocks and mud. Constructed of durable UV treated ABS with a slight texture, these paintable flares provide a great look while being able to handle whatever nature throws at them. Each All Terrain Flare is designed to fit factory mounting points [CJ and YJ designs require some drilling] with durable rust proof stainless fasteners. Each front flare uses your existing side marker lights by easily attaching to custom light cut-outs. Backed by an industry leading 3 year limited warranty, these NEW All Terrain Flares will really set you apart from the crowd!

* Some drilling required

Need a little extra coverage for those over-sized tires? The Rugged Ridge® 7" Flare gives you the extra coverage you need while providing the clean look of original equipment designs. Each over sized flare is constructed of virtually indestructible UV treated thermoplastic to provide years of service. The special UV treatment put on each flare provides protection from sun fading. These flares are designed to bolt onto your vehicle but for CJ and 1987-95 Wrangler models, some vehicle modification may be necessary to truly cover those oversized tires. If you go off-road and need to protect your vehicle from rock chips and debris, look to Rugged Ridge® 7" oversized Fender Flares! Includes all mounting hardware.

REPLACEMENT FENDER FLARE KITS

Rugged Ridge® provides the most comprehensive replacement Fender Flare program on the market today. Covering model years starting in 1955 until current, Rugged Ridge® has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes (some models may require some hole relocation) for ease of installation. Just need to replace one flare? No problem. Rugged Ridge® offers individual replacements to keep your investment to a minimum.

STEEL D-WINDOW WHEELS

Legendary looks, brutally epic strength. Each Rugged Ridge® steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up the abuses of off road use. Because a Jeep® isn't a Jeep® until its lifted and outfitted with oversized tires. Polished chrome enter cap included.

15201.04 Wheel Adapter, pair, for Converting Bolt Pattern 5 on 4.5" to 5 on 5.5"

CAUTION!

CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

LOCKING HUBS

Rugged Ridge® Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.

RUGGED RIDGE® SUMMER ACCESSORIES

Summer time is why you own a Jeep®! With the warm weather comes the open air driving we all love. Rugged Ridge® Summer Accessories make that open air driving more comfortable and stylish. Each accessory is manufactured to exacting specifications using tough matching vinyl coated fabrics that will provide years of great looks and high performance. When you demand the best, Rugged Ridge® is what you need!

SUMMER BRIEFS

Custom designed for each body style, these easy on, easy off briefs provide protection from the hot sun and sudden showers. Each Rugged Ridge® Summer Brief attaches to the factory center hoop and windshield with heavy-duty nylon straps to prevent flapping. Key rear strap attachments have quick release fasteners so once your straps are set, they easily detach and reattach. Wrangler models also incorporate thick hook and loop side mounts to further secure the top. All 1997-06 models are designed to be used with a no-drill Windshield Header (sold separately, see bottom of page) for quick conversion from hard top to Summer Brief.

POCKET BRIEFS

Tired of papers and other small items flying around the cab of your Jeep® when using your Summer Brief? Introducing the most innovative new addition to a Summer Brief in over 50 years the Pocket Brief from Rugged Ridge®! This revolutionary design incorporates two mesh zippered corner pockets directly over the driver and passenger creating much needed storage space. Special two sided mesh and nylon "pocket" seals shut with a reinforced zipper, keeps small items secure even in the most severe conditions. Built directly into the Rugged Ridge® Summer Brief to ensure a clean, tight fit. Constructed of durable soft top fabric for long life. Available in matching soft top colors to give your Jeep® a finished look.

* Requires a separate Windshield Header [#13308.04] for installation ** Requires a separate Windshield Channel [#13308.01] for installation See information on Page 18.

WARNING: Warning: Tops and doors are designed only for protection against the elements. Do not rely on top or doors to contain occupants within the vehicle or protect against injury during an accident. Consult vendor's product safety literature for additional information and WEAR SEAT BELTS AT ALL TIMES.

WINDSHIELD CHANNELS/HEADERS

These upgraded preassembled windshield headers installs quickly and easily! Just attach your Brief/Island Topper and place the header channel on the top of your windshield, slide the clamps onto the supplied knobs and clamp the channel in place. That's it! The channel is now securely held in place and ready for summer wheeling. No drilling or modifications required! Note: Will work with Bestop and other aftermarket summer tops. No Drill Windshield Header required for installation of Summer Briefs and Island Toppers on all 1997-06 Wranglers and Unlimited. Windshield Channels are required for installation of Summer Briefs and Island Toppers on all 1976-95 CJ/Wranglers.

MESH SUMMER BRIEFS/ISLAND TOPPERS™

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge® mesh brief/Island Topper is designed for strength and durability while providing open air protection from the sun's heat. Available in two great styles: the Summer Brief that goes to the center hoop and the "Island Topper" that goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel needed to install these tops!

WARNING: Warning: Tops and doors are designed only for protection against the elements. Do not rely on top or doors to contain occupants within the vehicle or protect against injury during an accident. Consult vendor's product safety literature for additional information and WEAR SEAT BELTS AT ALL TIMES.

ISLAND TOPPERS™

Provide the ultimate summer sun and rain protection with a Rugged Ridge® Island Topper. Attaching the same way as our durable Summer Briefs, these full length tops provide protection from the elements for both the front and rear passengers. Rear attachment straps secure to the rear sport bar hoops on 1992-06 models. 1976-91 models include an easy to attach rear bow. All 1997-06 models are designed to be used with an optional, no-drill Windshield Header for quick conversion from hard top to Summer Brief.

QUALITY, VALUE, SELECTION, XHD REPLACEMENT TOPS HAVE YOU COVERED!

New and improved XHD Replacement Soft-Tops from Rugged Ridge® are now available with 50% thicker glass! Each Fabric Soft Top is specifically designed to easily fit the factory original soft top hardware. Simply take off the old top and slip on the new. It's just that easy! These new designs feature reinforced stitching on the heavy "pull" areas as well as heavy duty 30 mil thick glass! All XHD Soft Tops feature durable vinyl coated polyester and cotton fabric that will last the test of time. All sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun. Each seam is literally "welded shut" with durable heat seal tape to keep moisture out while keeping the original look of the top intact. Attaching the Rugged Ridge® Top is easy with the factory original "belt rail" attachment method; simply tuck under the rail and go! All our tops feature two choices of door options as Jeep® offered the 97-06 Wrangler with upper soft doors or with full hard doors. Rugged Ridge® makes a Replacement Top that fits either! Each top is backed by an industry leading 3 year limited warranty against manufacturer defects.

The most comprehensive line of replacement soft tops on the market, so you can choose what options are best for you!

NEW 30 mil thick DOT approved windows are 50% thicker than lower cost soft tops! Available in clear or 31% tint (rear quarter and rear glass) on most Jeep® models.

Jeep® applications (and late model Suzuki) feature zip out windows for the true open air experience. Each side and rear window have durable zipper attachments covered by weather seals to keep the weather out

Rugged Ridge® soft tops use only the finest vinyl coated polyester fabric or durable sail cloth on all their tops. Each fabric color is specially formulated to match the original equipment colored top to make your Jeep® look like it came off the show room floor.

BOWLESS TOP FOR 97-06 WRANGLER

The Bowless Top from Rugged Ridge® is the most versatile Jeep® soft top on the market. It allows you to convert instantly from a full top to a summer brief, and eliminates the need for the bulky OE soft top frame. The Bowless Top fits snugly over the factory roll bar for a more aerodynamic “fastback” look, but retains your factory door surrounds and tailgate bar to provide an air tight fit. Convert to a summer brief by simply unzipping the side windows and stowing them in the rear window storage fold designed into the top. The Bowless top is made to the same specifications as our factory replacement tops and features: reinforced stitching on the heavy “pull” areas, as well as heavy duty 30 mil thick DOT approved 31% tint window glass, durable vinyl coated polyester and cotton fabric, and all sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun.

CJ & Wrangler 76-06

Windows fold up under top for open air driving.

Top includes 2 zippered storage pockets.

More Exclusive Features:

BLACK DENIM

SPICE

Sail Cloth

- NEW design is less complex and easier to install than competitive brand tops.
- Custom design fits better using significantly fewer straps and no center bow. Our bowless top uses only two Velcro side straps, one center adjusting strap and two rear straps making a better fitting, easier to install top
- All straps are inside the top making for a cleaner better looking design
- Rear window either rolls up or can be used as the storage flap for side windows. No extra pockets or complicated securing device to store your rear quarter windows
- Side weather protecting foam is attached to the top. Competitive brands have this foam separate from the top creating a potential missing part
- Each Top includes a pair of handy zippered side pocket for map and accessory storage
- Side design includes a handy installation pull tab for ease of installation
- Notorious leak spots behind the doors have been covered with a special rain flap; keeps the weather out!
- Backed by our industry leading three year limited warranty. Most soft top warranties are only 1-2 years!

RUGGED RIDGE® ALL TERRAIN FLOOR LINERS FOR 1976-06 CJ & WRANGLER

CJ & Wrangler 76-06

The only floor liner with patent pending "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised nibs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patent pending.

12975.11 Cargo Liner, 97-06 Wrangler

Easy to clean design; simply hose off and go!

RUGGED RIDGE® OVERHEAD STORAGE CONSOLE

The Rugged Ridge® Overhead Storage Console is the storage solution you have been waiting for! It instantly turns the area underneath your top into usable storage space without any interference or modification to your vehicle. Works with soft tops, hardtops, the top up, or the top down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded High-Density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5"x2.5"x6.5" and offers more than 450 cubic inches of storage.

Protect your headlights from debris and get that offroad look with a set of Rugged Ridge® Euro-Guards. Constructed of durable powder coated steel, these front Euro-Guards are designed to last. No drilling required for installation. Each kit comes with a pair of guards to cover both sides of the vehicle. The side marker light guards are a great complement to our front light Euro-Guards. Installation is easy and light visibility is not hampered. Sold in pairs. The turn signal light guards are designed to match our Headlight Euro-Guards. They feature the same great style and construction. They give a rugged look while protecting an important area. Sold in pairs.

BILLET AND REGULAR STONE GUARD KITS

Protect and enhance the look of your Jeep® with your choice of two types of stone guards. Each set includes six pieces to protect your headlights, taillights and turn signal indicators. The regular Stone Guards feature a durable wire mesh in durable black powder coat finishes. The Billet Stone Guards are also available in black and feature a contemporary look found nowhere else. Match these kits up with the Rugged Ridge® Grill inserts and headlight bezels and you have a complete front end enhancement.

NEW XHD REPLACEMENT SEATING

Finally a seating design that fits late model [97-06] Wranglers without the use of an add-on adaptor bracket. This revolutionary new patent pending design is the first true replacement seating up-grade in the last 30 years! By offering a model year specific program for late model Wranglers, you only need to purchase the replacement seat and not be bothered with those expensive add-on adaptor brackets. Furthermore, while developing these new designs, we up-graded specific components of the seats creating the most durable seating program on the market today. The XHD seats, though they look similar, are an up-grade to our current designs.

Features and benefits of XHD Seating

- Special patent pending seat base design that allows for easy installation in all 97-06 Wranglers without any adaptor brackets! Saves you money, provides extra strength and provides true ease of installation!
- Each XHD Seat is designed to allow full functionality on 97-06 Wranglers. The unique design incorporates the factory front slider feature along with a built-in reclining mechanism for driver comfort. Only XHD Seating from Rugged Ridge® gives you these options on late model Wranglers!
- Dense foam pack and heavy duty raised spring design creates a more comfortable seating experience. This new "comfort design" has been created to ensure seat longevity and comfort all in one package
- Four heat treated grade eight 7/16" side bolts attach the seat base to the seat back. This increased bolt size [most seats use 8 MM bolts] strengthens the seat back and meets DOT standards for use with late model [03-06 Wrangler] seat belt attachments
- Tough automotive grade vinyl or woven fabric [XHD Off-Road Seat] and matching stitch patterns provide a great look in your Jeep® and tough "off road rated" performance.
- All lower seating areas have an expanded bolster area providing a wider seating area and more comfort. Wider bolsters also provide easier access/exit while entering and leaving the vehicle
- A low profile seating surface along with not having to use adaptor brackets provides less steering wheel interference and more comfort. These seats have been specially designed for the true Jeep® enthusiast!
- Infinitely adjustable reclining mechanism lets you customize the seat recline position for the ultimate in comfort
- Each seat offers an industry leading 3 year limited warranty

XHD ULTRA SEAT

- Our Full featured seat design with a removable and adjustable head rest.
- Expanded top and bottom side bolsters cradle the driver in comfort.
- Stylish racing design up-grades the look of any Jeep® interior.
- Constructed of durable automotive grade textured vinyl and available in four factory matching colors: Non-textured Black, Gray, Black Denim, Spice.
- Infinite recline mechanism.

XHD RECLINING SEAT

- Low cost seat replacement option. Style matches the original Jeep® look with horizontal stitching and infinite recline mechanism.
- Great entry level price point for the 97-06 Wrangler.
- Constructed of durable automotive grade textured vinyl and available in three factory matching colors: Gray, Black Denim, Spice.

Neoprene, 03-06 Wrangler

CUSTOM FIT NEOPRENE & POLY COTTON SEAT COVERS

Protect your Jeep's® interior with these two great Seat Cover options: Custom Fit Neoprene Seat Covers or Custom Fit UV treated Poly Cotton Seat Covers, both from Rugged Ridge®. These covers are constructed of either durable neoprene or tough poly cotton fabric creating the best looking custom seat cover available. Rugged Ridge® does not use that cheap stretch nylon on their seat covers! Neoprene [wetsuit material] is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Poly Cotton is a great fabric to protect your seats from dirt, sweat and heat from the sun. No more burned legs from hot vinyl seats! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently re-upholstered. Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. Available in black on black, Gray on black, red on black [neoprene models only] and tan on black to complement virtually any Jeep® interior.

RUGGED RIDGE® SYNTHETIC ROPE PERFORMANCE WINCHES!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dymeema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge® winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge® 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fiber used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

WARNING: WARNING: Read and understand all instructions and related Warnings, Cautions and Notices before attempting to install or use your Rugged Ridge® winch.

WHY SYNTHETIC WINCH ROPE?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

NEW!

- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great kits to fit your lifestyle and budget. Made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail.

Raised Winch Plate, CJ 76-86 NEW	11238.13

* Does not work with Tube Bumper, use Raised Winch Plate for Tube Bumpers.

If you have installed larger tires on your rig then a matching spare tire is a must. The problem comes when you try to bolt that new monster tire/wheel combo on your factory spare tire mount. Rugged Ridge has the answer with the HD Tire carrier Mount. The HD Tire Carrier Mount is constructed of heavy 1/4" steel plate and mounts to the tailgate. The tire is relocated two inches up and out from the old mount for larger tire clearance [Maximum tire size=35"].

HEAVY DUTY TIRE CARRIER MOUNT

GAS TANK SKID PLATES

The last thing you want to happen on a trail ride is to lose the only thing that keeps your engine running: gas. That's why Rugged Ridge has custom designed this Skid Plate to protect the gas tank on 1987-06 Wranglers. This overbuilt skid plate is a must for those who want that extra bit of protection for their off road adventures. Constructed of durable 3/16" thick powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Bolt-on installation using existing frame mounting locations. This skid plate replaces the factory skid plate.

HEAVY-DUTY DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made of 3/8" cast steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been "44 caliber tested" - if they can take a bullet at point blank range [don't try this at home!], they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy of installation.

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain is to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powdercoated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. 70-95 CJ & Wrangler kits place the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries. 97-06 TJ Wrangler kits stack the batteries and are for use with cylindrical-style sealed gel cell batteries only due to the battery mounting direction.

OFF ROAD JACK ROLL BAR MOUNTING BRACKET

Get your Hi Lift style jack out of the elements with this roll bar mounting kit from Rugged Ridge®. Storing your jack outside leaves it vulnerable to water, debris, ice and theft. These great new brackets allow you to secure your jack to the sport bar without sacrificing cargo area storage, and increase the longevity and function of your jack! The simple no drill installation allows for easy removal and storage of the jack.

Off Road Jack Roll Bar Mounting Bracket	Part #
76-06 Wrangler NEW	11586.02

NEW!

SOLID ROCKER GUARDS

Heavy-duty rocker panels are designed to provide maximum protection for your Jeep®'s most vulnerable points. Manufactured from 3/16" thick steel plate with a tough black textured finish, these heavy duty rockers can take a beating. Each features cutouts for use with offroad jack and a 2" step for easy access. To protect your vehicle's finish rubber gaskets are utilized to seal and protect the paint and body. For use with most aftermarket fender flares. Two part numbers cover 97-06 Wrangler and Wrangler Unlimited.

03-06 Wrangler Unlimited, Pair NEW	11504.16

NEW!

HOOD LIFT KITS

Eliminate the factory prop rod with a pair of gas charged hood lifts. This kit includes all the brackets and gas shocks needed to clean up the underhood appearance of your rig. This kit is also functional as the hood prop rod will no longer be in the way while working underneath the hood of your CJ or Wrangler. Easy installation.

TRANSFER CASE SLIP YOKE ELIMINATOR KIT/CV DRIVE SHAFTS

18676.72 Mega Short Slip Yoke Eliminator Kit

This kit is a MUST if you installed a 2" or taller suspension lift in your 1988-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit [SYE] will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. The Mega Short SYE [18676.72] is designed to be used in the same lift applications as the other standard SYE kit (2" and up). The main advantage to the new Mega Short SYE is that it allows for a much longer drive shaft to be used (additional 3"). This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

18676.60 Slip Yoke Eliminator Kit

16592.06 CV Equipped Drive Shaft for 97-06 Wrangler

WARNING

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

LOWER CONTROL ARM MOUNTS FOR 1997-06 WRANGLER

Designed to replace and upgrade the weak OE front lower control arm mounts on 1997-06 Wranglers. These heavy-duty weld-on brackets provide a secure mount when driving off road. Greater wall thickness combined with a welded alignment cam provide extra support to the axle.

Lower Control Arm Mount	Part #
Lower Control Arm Mount, 97-06 Wrangler, Pair	18273.01

HEAVY-DUTY STEERING BOX MOUNT

18003.10 Heavy-Duty Steering Box Mount

This overbuilt mounting system eliminates the two piece original equipment version that is prone to fatigue and cracking. With this mount, we have integrated a clamshell frame plate eliminating any potential weak points. Each kit is complete with all hardware and installation instructions. This is the last steering box mount you'll ever need to buy!

SOLID MOTOR MOUNT

Rugged Ridge® Solid Motor mounts are built from durable 6061-T6 Aluminum with a tensile strength of 42,000 psi. Built to replace your wimpy OE rubber engine mounts to eliminate weight transfer on the trail and torque loss and binding that result in excess engine movement. Our mounts feature a protective black anodized finish for long life and corrosion resistance.

NEW!

Solid Motor Mount	Part #
6061-T6 Aluminum, AMC V8, 304, 360, 390, 401, Jeep® CJ 72- 81, Pair NEW	18390.20

HEAVY-DUTY STEERING KITS & COMPONENTS

Beef up your ride with Rugged Ridge® steering components. This is a bolt-on solution for preventing bent tie rods from wheeling with larger tires. The tubes are 1-3/4" ID SAE 1018 steel that is cold rolled, pierced, and drawn through dies to produce a wall thickness of 3/4". This is true DOM tubing with no seams or welds to fail. Heavy-duty 7/8" rod ends feature standard tapered ends to fit stock knuckle applications. You get one ton strength without any modifications to your steering knuckles. The Heavy-Duty Crossover Steering Conversion Kit replaces the bump-steer prone inverted Y-type steering system. This kit connects the drag link to the end of the tie rod at the wheel, giving a better steering angle and better leverage. If your vehicle is lifted a crossover steering system is a must!

Heavy Duty Crossover steering systems prevent "bump steer"!

Heavy-Duty Kits

	Part #
Complete Heavy-Duty Crossover Steering Conversion Kit [Includes 4 Tie Rod Ends & Steering Dampener Bracket] 97-06 Wrangler, 84-01 Cherokee (w/under 4" lift), 93-98 Grand Cherokee [6 Cylinder only]	18050.82

Heavy-Duty Tie Rod End With Drag Link Connection, 7/8" Left Hand Thread, Each	18043.27

RRC TUBULAR FLAT FENDERS

These over-built tubular fenders were designed for maximum suspension articulation while still maintaining a factory-style inner fender liner. Tough 0.120" wall tube is attached to 1/8" steel plating for one tough fender design. RRC Tubular Flat Fenders are direct factory replacements with a built in full fender liner [some drilling may be required] allowing for all factory engine accessories to be mounted by using the factory mounting hardware. Fenders are packed in pairs, primed for paint. Though these flares cover most tires, they are designed for offroad use and additional flare coverage may be needed for onroad use in some states. Two unique styles to choose from: Basic model requires greater installation [drilling] and more sheet metal work before painting. It also includes the side marker light housing. Upgrade model bolts directly on using factory inner liner has ground welds and is ready for paint. The upgrade version does not include the side marker light housing and is designed for offroad use only.

11252.04 Hood Lock, 1998-06 Wrangler

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge® lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually.
All include impact resistant stone guards

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

HALOGEN LIGHTING

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards (white stone guards with stainless, black with black) and illuminated dash switch.

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque, depending on application.

- Polished mandrel bent 6063 aluminum air intake tube.
- Simple no-drill installation bolts on using simple hand tools.
- Includes a high-flow conical dry panel filter that never needs oiling.
- Intake kit includes black powder coated heat shield
- Part # 17750.01 for 97-06 4L wranglers include a throttle Body Spacer as a part of the kit.
- Improves fuel economy up to 10%*
- Adds up to 10HP and 12ft lbs or torque**

THROTTLE BODY SPACER

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for both 4.0L and 2.5L engines. [included in cold air kit 17750.01]

- Solid Aluminum Construction.
- Simple no-drill installation bolts on using simple hand tools.
- Includes mounting hardware, gaskets and spacers.
- Black Anodized Finish.
- Fits 91-06 Wrangler 4.0L & 91-02 2.5L

NEW!

Throttle Body Spacer	Part #
1991-06 Wrangler 4.0L & 91-02 2.5L NEW	17755.01

SYNTHETIC AIR FILTERS

Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! Rugged Ridge® performance high flow filters are made from a synthetic fabric and not cotton. Cotton filters are made porous and must be oiled to trap dirt and debris. But that oil reduces air flow through the filter and it can become easily clogged. No oil = No fuss, no mess and improved performance!

RUGGED RIDGE® CATBACK EXHAUST KITS FOR 2000-06 WRANGLER

Open up your Jeep's® exhaust with this great looking stainless steel catback exhaust system from Rugged Ridge®. Rugged Ridge® catback exhaust kits are manufactured from mandrel bent, T304 stainless steel that has been polished to a mirror finish. They feature a precision TIG welded muffler with reinforced inlets and outlets, and a deep throaty sound. The 2-1/4" mandrel bent pipes increase performance and provide exhaust gases a smooth exit from though looking slant cut exhaust tips. This is a bolt-on system that installs after the catalytic converter to keep you emissions legal. Dyno results show typical horsepower gains of over 10 horsepower, or you can use in conjunction with our cold air intake for even more power! Rugged Ridge® Catback Exhaust: Great Sound. Better Performance.

LOCKABLE SPARE TIRE MOUNT BIKE CARRIER

This easy-to-use bike rack mounts to any emergency tire mounting studs. The bike rack carries 2 bikes directly off the spare tire. It is constructed of 2" powder coated steel tubing for maximum rust protection and durability. The bike clamp features rubber pads to protect your bike's finish. The carrier comes with 2 keys for the locking mechanism. Fits wheel off sets from 2-5/8" to 6". For all Jeep® outside spare tire applications.

Designed by a dedicated team of Jeep® enthusiasts, the ORV™ suspension program is one of the most complete programs available. We have looked at each application in detail to provide the very best and most complete solution for your Jeep®. Since we focus the large majority of our attention on Jeep® vehicles, we know the ins and outs of what the best lift solution is depending on your individual needs. Below is a quick reference guide on the ORV™ program to make it easier to choose the lift you need for your particular need. Remember, all ORV™ Kits with shocks include a pair of neoprene wrapped grab handles and an Off Road Organizer for your glove box!

Welcome to ORV™ by Rugged Ridge®!

A FEW WORDS ABOUT PRODUCT SAFETY.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road.

It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product.

To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

NOTICE

This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING

This is a signal telling you that you CAN be KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION

This is a signal telling you that you or others CAN be HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING HIGHER ROLLOVER RISK

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

18415.33 Poly Spacer Kit

18415.31 Coil Lift Kit

18415.20 Leaf Spring Kit

Know your Kits: Though there are many ways to provide extra lift for your Jeep®, ORV™ recommends the following lift options as the best way to Lift your Jeep®:

Poly Spacer Kits: Available for Coil Spring Jeep® Wranglers from 97-06

Coil Spring Kits: Available for Jeep® Wranglers from 97-10, 93-98 Jeep® Grand Cherokee

Leaf Spring Kits: Available for Jeep® CJ/Wrangler from 55-95

LIFT OPTIONS EXPLAINED:

• **Poly Spacer Kits** - Used for small lifts, these low cost lifts are designed for on road/light off road use only and incorporate the factory coil springs. With the addition of spacers, the ride of your Jeep® will be stiffer than original and provides very little articulation when off road. Bump stops (also called blocks) should always be a part of the kit as you will be using the factory springs. Without the bump stops your spring could over compress. These situations can cause a rebound rate that is too great causing a potential mishandling situation or damage your suspension. This method of lifting is the low cost/lower performance solution to lifting your Jeep® vehicle.

• **Coil Lift Kits** - Used for medium to large lifts, these lifts are designed for on road and moderate to severe off road use. Coil Spring kits provide the best way to give extra lift and still maintain OE ride characteristics. The 2" - 4" kits should offer new springs and extended Bump Stops as listed above as well as rear track bar bracket/brace to ensure proper centering of the axle and a secure fit. On 4" kits, it is important have front sway bar disconnects. These important disconnects will provide much more articulation when using your Jeep® off road.

• **Leaf Spring Kits** - Used for all Jeep® CJ/Wrangler vehicles from 1955-1995, these heavy-duty lifts provide a fairly straightforward lift option. The key to any leaf spring lift is the leaf spring itself and prices will vary greatly depending on quality and features. Key "must-have" features that will provide the best ride include: 1.) Teflon inserts between each leaf. These inserts allow each leaf to move independently creating a better ride both on and off road. 2.) Leaf springs should be held together with roller clips and not cinch clips. This method of securing the leaf springs together is more expensive but dramatically improves the vehicles ride and off road performance. 3.) Make sure your leaf springs have built-in degree wedges to help with pinion angle issues. Plus by having a degree wedge already attached, installation of the kit will be easier and there are no extra parts to purchase.

COIL SPRING KITS

All ORV™ springs are set to original factory rates. Provides a better ride both on and off road.

All ORV™ springs are constructed of 5160H hot rolled bar, keeps its memory so the spring will not sag.

All ORV™ coil springs are powder coated, E-coated 5/8" coil for long life and strength.

POLY SPACER KITS

Coil spring spacers are made from high density polyurethane.

Rugged Ridge® bump stops are firmer than stock stops for more suspension control.

LEAF SPRING KITS

All late model CJ/ Wrangler ORV™ leaf springs use a roller clip to improve ride.

All ORV™ leaf springs have Teflon pads in between each leaf for maximum travel and a better ride.

All ORV™ leaf springs are powder coated, shot-peened steel, reducing leaf fatigue. This treatment ensures the leaf springs will last longer.

All ORV™ leaf springs have built in degree wedges to help correct pinion angle.

All ORV™ leaf springs are pre-assembled and set to factory flex rates.

ORV™ SHOCKS

ORV™ only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV™ kits provide a better ride both on and off road. By using an ORV™ lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll. This is extremely important, as body roll will kick in the ESP sensors on later model Jeeps®, which could shut the vehicle down.

ORV™ SHOCK FEATURES INCLUDE:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV™ specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

ORV™ Steering Stabilizers	Part#
ORV™ Hydraulic Series Steering Stabilizer, 97-06 Jeep® Wrangler	18475.02
ORV™ Hydraulic Series Steering Stabilizer, 04-06 Jeep® Wrangler Unlimited	18475.02
ORV™ Hydraulic Series Steering Stabilizer, 87-95 Jeep® Wrangler	18475.02
ORV™ Hydraulic Series Steering Stabilizer, 55-86 Jeep® CJ	18475.01

ORV™ STEERING STABILIZERS

ORV™ recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV™ Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV™ Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 97-06 Wrangler TJ, 2" spacer lifts are designed for a larger tire than factory and light off road use. The 2" coil kit is designed for a larger tire and moderate off road use. The 4" coil kit is designed for more severe off road use and up to a 34" x 12.5" x 15" tire.

ORV™ COIL SPRING LIFT KITS FEATURE:

- Get off road performance while not sacrificing on road ride! This kit will provide as close to factory a ride as you can get while providing off road articulation.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to original factory rates. By using 5160H hot rolled bar, ORV™ springs keep their memory eliminating any possibility of future sag.
- By setting the coil springs to factory rates, you get the best on road ride possible and the ability to use a larger tire.
- ORV™ uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding: this extra heavy-duty design ensures a long life, both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- Each 2" Coil Spring Lift Kit includes 1" transfer case lowering brackets. These are not spacers but full-length brackets that actually solidly secure your transfer case. ORV uses these brackets rather than spacers as spacers can create flex therefore putting undue stress on the drive line.
- Each 4" Coil Spring Lift Kit includes 1.5" transfer case lowering brackets. These are not spacers but full length brackets that actually "true" your transfer case. ORV™ uses these brackets rather than spacers, as spacers can create flex therefore putting undue stress on the drive line.
- Kit includes two sway bar disconnects for more off road articulation.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 1997-2006 Wrangler/Unlimited.
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry (sold separately).

CJ & Wrangler 76-06

ORV™ 2" Poly Spacer for 1997-2006 Wrangler 18415.33
 • Low cost kit that provides a small lift for over sized tires
 • Each kit contains 4 spacers and four bump stops
 • Spacers are made of durable polyurethane for a long life

*These drives shafts use 3-5/8" wide U-Joints, please verify U-Joint size before ordering.

DROP PITMAN ARMS

Lifting a vehicle takes more than just slapping on taller springs. The stock steering linkage is designed for use with the stock height suspension. The steering linkage angles of a lifted vehicle are more extreme and influenced by suspension travel. This drop pitman arm helps reduce the angle of your drag link and reduce bumpsteer created when a suspension lift is installed.

Drop Pitman Arms	Part #
87-06 Wrangler w/Power Steering, 4" of Lift	18006.50
87-06 Wrangler w/Manual Steering, 4" of Lift	18006.52

BODY LIFTS FOR 1997-06 WRANGLER

Need some extra clearance for your oversized tires? This all new Rugged Ridge® body lift includes everything you need to fit up to 33" diameter tires. By allowing a taller tire you'll get that extra ground clearance you need when facing off road obstacles.

3" Body Lift	Part #
97-06 Wrangler w/ auto, 05-06 6-speed transmission, Kit	18303.11
97-04 Wrangler w/ 5-speed, Kit	18303.10

WARNING
 HIGHER ROLL-OVER RISK
 Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® product to achieve additional lift. See additional product safety information and (WARNING) on page 76.

1955-95 CJ/WRANGLER

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 1976-95 CJ/Wrangler, the 2" - 2.5" Leaf Spring kits are designed for a tire size up to 31" and moderate off road use. The 1955-95 CJ/Wrangler 4" Leaf Spring kits are designed for more severe off road use and up to a 33" x 12.5" x 15" tire.

18415.08

18401.20

WARNING: WARNING: Look at the beginning of the ORV™ section for important safety information.

ORV™ Leaf Spring Lift for 1955-1995 CJ / Wrangler

- Get off road performance without sacrificing on road ride! These kits provide as close to a factory ride as possible.
- Includes 4 powder coated, shot-peened leaf springs with Teflon inserts and pre-installed degree wedges.
- Each leaf spring has Teflon between each leaf for a factory ride, better performance.
- Pre-installed degree wedges provide ease of installation and no more parts to buy. These wedges help to correct any pinion angle issues that may arise due to the lift.
- By shot-peening the leaves before assembly, it assures that the leaf springs will not sag over time.
- All ORV™ U-bolts are grade-8 and E-coated to ensure they will be able to take off road abuse.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 87-95 Wrangler [see below].
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry [sold separately, see below].
- Note: Actual lift height is dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].

Application	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size- HxWxD	Max Wheel Offset	Est. Install Time

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE® LIMITED LIFETIME WARRANTY

Your Omix-Ada® /Rugged Ridge® product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada® /Rugged Ridge® /ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge® but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge® suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada® /Rugged Ridge® /ORV™ Limited Warranty does not cover any Rugged Ridge® /ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to: Installation damage, alteration, modification or failure to maintain.

- Normal wear and tear [bushings, tie-rod ends, etc.]. Scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Omix-Ada® /Rugged Ridge® /ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current /Rugged Ridge® /ORV™ catalog or the instructions accompanying your Rugged Ridge® /ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada's® option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts (including Rugged Ridge® and ORV™) should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

DRIVETRAIN ENGINEERING PERFECTED

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an

industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand!

The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC [the distributor/warrantor of these products] makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 [770-614-6101]. Ultra Axle® reserves the right to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals, Differential Covers, Differential Cable Lock Kits, Wheel Spacers, Transfer Chain Kits, Yoke Conversion Kits & Hub Conversion Components - **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA® Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

FRONT AXLE KITS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA®'s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and driver inner and outer axle shafts, seals, U-joints and clips.

High tensile strength 4140 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 35% stronger than stock 1040 axles. Alloy USA® uses the latest cold rolled splining technology, to produce splines that are stronger than traditional cut splines. Our shafts are covered by an exclusive 10-year warranty! Rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs. Upgraded spline counts for Jeep® applications: Dana 35 spline upgrades from 27 splines to 30 splines. Dana 44 spline upgrades from 30 splines to 33 and 35 splines.

JEEP® RING & PINIONS

These affordable high strength gear sets come in all the popular ratios to satisfy everyone's gearing needs. Oversized tires require higher ring & pinion ratios to restore performance. Made from high quality 8620 forgings and Gleason gear cutting technology, these gears are made to last. Complete installation kits are available separately to complete the job. Exclusive 5-year warranty. Available in 3.73, 4.10, 4.56, 4.88 and 5.13 ratios.

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range [don't try this at home!], they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

NEW!

WHEEL SPACERS

- Moves your wheels out to help fit wider tires-creates extra stability.
- Hub centric design to assure wheel balance.
- Constructed of durable 6061T6 aluminum for long life, extra strength and corrosion resistance.
- Available in 1.25" to 1.5" widths for today's most popular wheel sizes.
- Each pair includes pre-installed grade 8 wheel studs, 10 lug nuts and thread locker.
- Wheel adaptors convert current bolt patterns to alternate bolt patterns for use with different wheels.
- Wheel Spacers and Wheel adaptors are sold in pairs.

DIFFERENTIAL CABLE LOCK KITS

The Alloy USA® Differential Cable Lock Kit is a permanent replacement for the failure prone OE vacuum disconnect system. The kit allows you to engage and lock the front axle from inside the cab. A 1inch pull of the cable ensures you will have four wheel drive when you need it for as long as the transfer case is engaged. Backed by a three year warranty.

Differential Permanent Cable Lock Kit, Jeep® w/ Front D30 Wrangler [YJ] 87-95 NEW	451100

TRANSFER CASE CHAIN

If you're servicing your transfer case and your OE chain has more than 60,000 miles on it, it is time for a replacement. Why replace your chain when you can upgrade it? Our advanced Round Pin technology allows the chain to double back on itself and offer greater articulation than the standard rocker pin design. We use high tensile strength steel to ensure that your TC chain endures peak loads under heavy operating conditions repeatedly over time. Backed by an industry leading three year warranty.

Transfer Case Chain

	Part #
Transfer Case Chain, NP231 and NP233, 1" Width w/ 30 Links, Jeep® Wrangler [YJ] 87-95, [TJ] 97-06, NEW	11650
Quadratrac Transfer Case Chain, 2 5/8" Width w/ 48 Links, CJ7 76-79 w/ Automatic Transmission NEW	11651

TRANSFER CASE SLIP YOKE ELIMINATOR KIT

This kit is a MUST if you installed a 2" or taller suspension lift on your 1988-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit [SYE] will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. This reduces drive shaft angle, improves bearing & U-joint life, and reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

⚠️ WARNINGS

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

11400 Slip Yoke Eliminator Kit

Transfer Case Slip Yoke Eliminator Kit	Part #
88-06 Wrangler, 88-01 Cherokee Slip Yoke Eliminator NEW [with NP231 transfer case] *, Kit	11400

[2] Note: Will not fit 87-95 Wranglers with O.E. front disconnect axle. Must upgrade to 1 pc 30 spline grande axle. For use with all grande 30 spline axle upgrades & Rubicon Dana 44's.

LOCK RIGHT® LOCKERS

The Powertrax® Lock-Right® Lockers performance is equal to a solid spool axle, yet automatically unlocks to allow full differentiation in turns. The locker also reduces the excessive noise, tire wear, and drivetrain damage associated with other lockers. Powertrax lockers replace the spider gears in your differential carrier without affecting your ring and pinion settings. The whole job can be done in your driveway with common hand tools in a couple of hours. A carrier is not included. Whether it be snow, sand, mud, ice, etc... the LOCK-RIGHT will give you the traction you need.

ARB-RD105

RING & PINION

Precision Gear® understands the rigors of racing. Horsepower is useless unless you can get it to the ground. Most companies providing ring and pinions today look for the cheapest source without consideration of quality. They “stand behind” their product until the day you buy it and install it on your car. At Precision Gear® each ring and pinion we sell is backed by an exclusive five year warranty! Our gears are made from high quality 8620 forgings and Gleason gear cutting technology because our gears are made to last!

For additional product listings and more information visit www.precisiongear.com.

Master Installation Kits:

Precision Gear® understands the complexity of rebuilding your differential. To help solve this difficulty and eliminate multiple trips to the parts store we have included everything you need to complete your ring & pinion installation and get you back on the road quick all in one great kit.

Master Installation Kits Include:

- Carrier Bearings
- Pinion Bearings
- Pinion Nut
- Pinion Seal
- Preload Shims or Crush Collar
- Pinion Shims
- Gasket or RTV
- Marking Compound
- Differential Shims (where applicable)
- Locktite
- Oil Slingers (where applicable)
- Ring Gear Bolts (where applicable)

* Ring & Pinions and Installation Kits are sold separately.
