Accessories, Performance & Replacement Parts

WE MAKE JEEPS ROCK

WE MAKE JEEPS ROCK.

Rugged Ridge® is synonymous with quality Jeep® parts and accessories. As a brand from Omix-ADA®, an industry leader in Jeep restoration and replacement parts, Rugged Ridge is a household name among Jeep and off road enthusiasts. With over 3,000 products developed and manufactured to date, Rugged Ridge continues to add hundreds of new products each year to satisfy the off road enthusiast’s desire to personalize their Jeep. Over the past ten years, Rugged Ridge has developed many unique and patented items that set us apart from other manufacturers in the market. Items like the Modular XHD bumpers, modular snorkel, X-Clamp, Hurricane fender flares are just some of these. Tested and proven by Rugged Ridge’s engineering team and employees, you can trust that Rugged Ridge products are the perfect fit for your Jeep.

BUY WITH CONFIDENCE

We take pride in building quality products and back them up with a **minimum 5 Year Limited Warranty** so you can buy with confidence and have peace of mind. For mor information on our warranties visit, www.omix-ada.com/warranties.

A FEW WORDS ABOUT PRODUCT SAFETY

The Omix-ADA®, Rugged Ridge® and Alloy USA® brand products illustrated in this catalog are generally intended to increase the utility and enjoyment of your off-road capable Jeep® or street rod. We hope this catalog will help acquaint you with our featured products as well as the broader offerings in each of our product families. Before installation, please take a moment to review the safety information and installation instructions accompanying your product. Safety information for particular products is summarized in this catalog but is not intended as a substitute for your review and understanding of actual product instructions and warnings! Important safety information is generally preceded by one of three signal words indicating the relative risk of injury. The signal words mean:

- ⚠️ WARNING

A hazardous situation which, if not avoided, could result in death or serious injury. **You can be killed or seriously hurt if you don’t follow instructions.**
- ⚠️ CAUTION

A hazardous situation which, if not avoided, could result in minor or moderate injury. **You can be moderately hurt and also may suffer property damage if you don’t follow instructions.**
- ⚠️ NOTICE

Careful attention is required to this instruction or operation but does not generally relate to personal injury. **Damage to your product or other property may result if you don’t follow instructions in their entirety.**

We hope you enjoy your Omix-ADA®, Rugged Ridge® and Alloy USA® purchases and are here to help if you still have questions after reviewing this safety information and instructions. See Customer Service contacts included with your Limited Warranty.

SPARTACUS STAMPED STEEL BUMPERS

Designed with the European consumer in mind, the soft contours of the Spartacus Stamped Steel Bumpers produce some of the most advanced styling in the industry. The stamping process also creates a high strength 11-gauge steel bumper that's lighter than most aftermarket bumpers. Both front and rear bumpers utilize an adaptable design that can be easily changed between wide or narrow configurations, providing Jeep® owners with two different appearances to accommodate larger wheels and tires as well as improved angles. Each kit includes a set of 7/8" D - rings and a variety of items so you can customize your Jeep® just how you want it. Patents Pending

- Stamping process allows for most advanced styling in the market
- Stamping also allows for efficient use of materials resulting in a bumper lighter than most aftermarket steel bumpers
- Injection molded crush can covers add modern styling while keeping vehicle in factory spec (front bumper only)
- Stamped in knuckles strengthen vulnerable bottom edge while providing a rugged a tougher look
- Rear bumper accepts 7/8-inch D-Rings

DON'T MISS OUT ON OMIX-ADA'S

2016 YEAR LONG REBATE PROGRAM

Just Buy on a Single Invoice Rugged Ridge®, Omix-ADA®, Alloy USA® or Outland® products and get a 5% cash rebate from Omix-ADA, Inc® (minimum order value \$149.99 required, maximum cash back rebate \$200 per invoice).

Mail completed form, original receipt or invoice and original UPC codes to:

OMIX-ADA, INC.
ATTN:CASH REBATE
460 HORIZON DR., STE 400
SUWANEE, GA 30024

The more you buy, the bigger the rebate! For more info, visit:
www.omixrebate.com or www.omix-ada.com/rebate

Terms & Conditions:

2016 Cash Rebate Offer is good on purchases made at authorized retailers between January 1, 2016 through December 31, 2016. You must submit the rebate form within 60 days of the original purchase date. Minimum total retail purchase requirements (per single invoice) of \$149.99 must be met excluding non-Omix-ADA family brand products that may be included in the retail invoice/receipt, tax, freight or any other charges (merchandise value only). All requests must be postmarked no later than 60 days from retail invoice/receipt date. P.O. boxes will not be accepted. Maximum rebate for any one consumer and address is the greater of \$2,000 or 10 rebate requests during this 12 month promotion period, whichever occurs first. All Omix-ADA family brand products must be on 1 invoice per rebate submission. Consumers are allowed up to 10 rebates per household during the promotion dates. Allow up to 8-10 weeks after rebate end date for processing of each rebate claim. Original label containing the UPC code (found on the outside of the product's package) and an original receipt or invoice is required. Rebate checks will be paid in U.S. Dollars. Cash redemption value is 1/100 of 1 cent. Keep copies of all materials submitted; originals will not be returned. Omix-ADA, Inc. is not responsible for lost, late, damaged, misdirected, incomplete, incorrect, or illegible requests. Offer is limited time only. False information or misrepresentation disqualifies this claim and violators may be prosecuted. Offer void where prohibited, taxed or restricted by law. Omix-ADA, Inc. reserves the right to modify or withdraw this promotion at any time. Rebate offer valid to residents of the lower 48 continental US states, Alaska, Hawaii and District of Columbia only.

XHD MODULAR SNORKEL FOR DIESEL JK *New!*

Following the design for 3.6 and 3.8 liter gasoline powered JK Wranglers, the XHD Modular Snorkel System is the first snorkel engineered with the versatility of interchangeable intake heights. By relocating the vulnerable stock air intake through an internal duct system just below the windshield, the XHD Modular Snorkel helps to eliminate dust-clogged air filters and the risk of hydro-locking your engine. Jeep® owners can easily swap the standard low-mount intake for a 21-inch, high-mount ‘ram’ intake on the Rugged Ridge® XHD snorkel system for whatever off-road conditions they may face, including tackling harsh dusty trails or deep water crossings. Patent No. 8,960,347, D687,071, D687,072

SHERPA ROOF RACK W/ CROSS BARS *New!*

This Sherpa roof rack kit from Rugged Ridge includes the roof rack, crossbar adapters, and two 56.5-inch round crossbars. The Rugged Ridge Sherpa Roof Rack was designed to add valuable cargo space above the roofline of JK Wranglers. A true bolt-on installation, the Roof Rack requires no modification to the Jeep’s body and features a unique tilt function for convenient access to your hard or soft top. With the Roof Rack system installed, hard top and freedom panels can be added or removed, and the soft top can be easily retracted or raised.

Sherpa Roof Rack Kit, 07-16 Wrangler	Part #

Sherpa Roof Rack Kit, 2-Door	11703.21
Sherpa Roof Rack Crossbars, Round, 56.5-inches, pair NEW	11703.11

ROOF RACK BASKET *New!*

Looking to add further utility to your roof rack area? This black sturdy roof rack basket from Rugged Ridge adds extra storage space outside of your vehicle, freeing up valuable room inside. Combine it with the Rugged Ridge Sherpa Roof Rack or Exo-Top™ for a more versatile and functional experience you might need for your next outdoor adventure. Engineered to be the perfect accessory for carrying luggage and any of your other must-have outdoor items, the strong two piece steel tray comes in a stunning black powder coated finish for corrosion resistance. The front of the tray incorporates a sleek and aerodynamic wind deflector which not only adds great styling, but makes for a much quieter ride. Universal fit. Features a 132 pound load rating.

Roof Rack Basket	Part #
Roof Rack Basket w/ Deflector, Black	11703.03

C3® REAR CARGO COVER *New!*

A versatile Jeep deserves versatile accessories. Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep. By protecting the carpet and plastic trim from damage, scratches, pet claws, dirt, and other debris, it'll stay looking pristine through all your daily tasks. No mess, no stress! A custom made and functional accessory for 2007 to current JKs, this unique design also allows for a pet friendly space, ideal for your pet to rest during long off-road trips. Featuring water resistant material, the split fold feature allows for 40-60 rear seat lowering, and provides coverage with your rear seat up, partially or fully lowered-- flexible and functional! A flip out cover flap keeps dirt from falling into the rear tailgate door gap. The built-in front curtain wall helps to keep items and pets from entering the front seat area. A unique side retention system insures the cover stays securely in place as you load or un-load. Easy to install and remove so you get protection when and where you need it. Rugged Ridge C3 Rear Cargo Covers, ready for whatever.

BOWLESS TOP *New!*

Replace your worn out soft top just in time for the summer season with the Rugged Ridge Bowless Top Systems. Available in black diamond, this distinctive fully enclosed design quickly converts from a full top to a Savannah top, taking you from ceiling to sky in seconds and eliminating the need for the bulky OE soft top frame. Precise engineering allows for a secure and formed fit over the factory sports bar. Supplied “whisper bars” dramatically reduce wind and road noise commonly associated with other frameless soft top designs. These Bowless Soft Tops also feature useful zippered mesh corner pockets for extra and convenient storage. As an added bonus, the soft top design also allows you to use more affordable aftermarket windshield headers. (Rugged Ridge P/N13308.06 recommended.) *Note: OE door surround/ tailgate bar and retainers are required.*

SPARTACUS HD TIRE CARRIER

The Spartacus HD Tire Carrier System provides the ultimate in strength and stability for mounting your oversized wheel and tire. Functionally designed to manage the amplified force and vibrations produced during extreme off-road conditions, the precision die-cast aluminum Hinge Casting provides maximum strength without the excess weight of steel. The onepiece design maintains one-handed access to cargo area and rigidly links the Wheel Mount to the reinforced section of the rear quarter panel. This, in combination with forged steel hinge brackets and hardened steel pins, results in far superior load capacity than the factory tailgate hinges, thereby effectively reducing wear and increasing longevity. Independently tested and rated for up to and including 37” wheel tire combinations when hinge casting and wheel mount are used together. Includes adjustable third brake light bracket. Compatible with OE and most aftermarket rear bumpers. No drilling required. Patent Pending.

HD Tire Carrier, 07-16 Wrangler	Part #
HD Tire Carrier Kit, Black	11546.50

TRAIL RUNNER CLASSIC HUB-CENTRIC WHEELS

An upgrade from ordinary steel wheels, the hub-centric design features five retro-style kidney shaped holes and a sleek gloss black finish, tough enough to withstand trail duty. The hub-centric design ensures the wheel is precisely centered upon installation, minimizing stress on wheel studs and eliminating the added road vibration common with non-hub-centric designs. Available with or without a molded ABS center cap, offering Jeep® owners two different looks with the same wheel.

New!

MAGNETIC PROTECTION PANEL KIT **New!**

At Rugged Ridge®, we know that sometimes when you hit the trails, the trails hit back-- and hard! That is why we created this Magnetic Protection Panel kit to protect your Jeep's paint while on the trails. Easily removable, this kit was designed to provide full coverage for the body of your Jeep®, to keep your mind at ease and your paint job flawless. Featuring a durable matte black vinyl finish, each panel is constructed of 16 gauge (.060 inches) thick magnetic sheet material for a tough finish and long lasting use.

XHD ROCK SLIDERS W/ INTEGRATED STEPS **New!**

Protecting your Wrangler just got a whole lot easier! The new Rugged Ridge XHD Rock Sliders are designed to defend your Jeep's most vulnerable points – the lower rocker panel and pinch seam. Featuring an innovative one-piece design, each rock slider is precision manufactured from CNC-laser cut 3-mm steel plate and finished with tough, textured-black coating. We have also integrated a four-inch step, making climbing in and out of lifted vehicles easier. Rubber gaskets cover the rocker panels, protecting your Wrangler's finish. Designed to function with stock and most aftermarket fender flares, XHD Rock Sliders are easy to install with no drilling required.

ECLIPSE SUN SHADE

The Rugged Ridge® Eclipse Sunshade gives the open air and top down feeling you want, while providing added protection from harsh sunlight. Featuring reinforced mesh construction, the half sun shade installs between the front portion of a JK sport bar and windshield to protect either front or rear passengers separately. The full-length sun shade is secured between the windshield and the rear crossbar of the JK sport bar to protect both front and rear passengers simultaneously. By using the mesh material with built-in elastic straps, this sunshade was designed from the start to eliminate the need for a header channel as with other similar products. An all-in-one package, this sunshade is simple to install and does not require any modifications. By retaining access to the Jeep® top clamps, drivers can keep the shade in place and preserve function of the factory top. The Eclipse Sun Shade installs with sewn-in bungee cords and a small mesh carrying bag for storage when not in use.

EXO-TOP™

SHERPA JK ROOF RACK SYSTEM

ROOF RACK AND SOFT TOP FOR THE PRICE OF JUST ONE!

The Exo-Top™ is an innovative new design that for the first time ever combines the joy of top-down driving with the utility of a roof rack, taking convenience, function, and style to new levels by allowing Jeep® owners the ability of conveniently lowering, raising or removing the Jeep's soft top with ease without having to unload gear from the roof-rack cargo. By combining the soft top and roof rack, the Exo-Top™ allows owners to experience a Jeep to its full potential for camping, off-roading, or any lifestyle hobby they may have. This new top also features an innovative Sun Slider® retractable function which allows the top to slide back with the release of just two latches, creating an open-top experience for owners without the hassle of getting out of the driver's seat. Integrated into the 300-lb. capacity roof rack is an advanced externally suspended soft-top design that fastens using a series of Velcro straps along the perimeter bars of the roof rack. The pulling force applied by the Velcro helps to tighten and shape the soft top. Offered for both the two- and four-door configurations, the Exo-Top™ features a patent-pending design that is a direct bolt-on application with no drilling required for installation.

Rugged Ridge Exo-Top™	Part #
07-16 Wrangler, 4-Door	13516.02
07-16 Wrangler, 2-Door	13516.01

The new Sherpa Roof Rack System by Rugged Ridge® is an easy bolt-on solution for two and four-door Wranglers that requires no modifications to the body of your Jeep®. The unique tilt feature allows you to access your soft top with ease, and the hard top or freedom panels can be removed without removing the rack system. As an added bonus, the forward mounting bar acts as an integrated light bar. The Roof Rack System accepts the Rugged Ridge drop down light bracket (PN 11232.22) to mount up to four lights.

Designed to allow removal of hard top without moving the roof rack.

Unique roof rack tilt function allows you to easily put your soft top back.

Use the optional Roof Rack Adapters to mount cross bars.

Will not work with 2013-16 OE spring assist tops.

WINDOW STORAGE ROLL BAG

Protect your soft top windows from scratching and other damage with a Window Storage Roll Bag from Rugged Ridge. This easy to use storage bag stores your rear windows using a soft internal material and a heavy duty exterior fabric for the ultimate in protection. The internal fabric is placed between the windows to prevent scratching and window on window contact. Simply place the windows in between the fabric and gently roll the windows into an easy to store “window roll”. The rolled up bag can now be easily installed to the rear of your sport bar with attached nylon straps and buckles.

Window Storage Sport Bar Bag	Part #
07-16 Wrangler, Black	12107.05

FREEDOM PANEL STORAGE BAG

If it’s nice outside and you’re looking for an open air experience, but have nowhere to store your Freedom Panels when you remove them, Rugged Ridge has you covered. This black vinyl storage bag offers a quick and affordable solution to protecting your hard top Freedom Panels, allowing you to enjoy the great outdoors.

Freedom Panel Storage Bag	Part #
07-16 Wrangler	12107.06

DOOR STORAGE BAG

Prolong the life of your hard doors with this handy storage option from Rugged Ridge. Each storage bag features special soft fabric sides that are padded to “cradle” your hard door. We use oversized zippers and durable nylon fabrics for long life and weather resistance. Special handle placement allows for easy carrying and storage, and each bag includes a strap that allows them to hang on the wall of your shop or garage.

TIRE COVERS

Rugged Ridge Tire Covers are custom designed to fit today’s most popular sized tires. Constructed of durable vinyl coated polyester fabric. Colors match other Rugged Ridge soft accessories. Please measure tire diameter.

Tire Diameter	Black	Gray	Denim Black	Diamond Black
27-29"	12801.01	12801.09	12801.15	12801.35
30-32"	12802.01	12802.09	12802.15	12802.35
33"	-	12803.09	12803.15	12803.35
35-36"	-	12804.09	12804.15	12804.35

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above.

TUBE DOORS

Rugged Ridge® Tube Doors are constructed from durable 1.5 inch mandrel bent steel tube that is E-coated primed and powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

- Thicker than most tube doors with durable 1.5” diameter steel tubing construction
- E-coated & textured powder coated for corrosion resistance
- Designed to work with original mirror or Rugged Ridge replacement mirrors.
- Easy to install and remove
- Durable and lockable paddle handle
- Full frame rattle free design

Rugged Ridge Tube Doors	Part #
07-16 Wrangler, Front, Pair	11509.10
07-16 Wrangler 4-Door, Rear, Pair	11509.11

TUBE DOOR CARGO COVERS

Add a fully adjustable Molle / Pals storage solution to your tube doors! The Rugged Ridge Tube Door Cargo Covers are made from 600 denier polyester fabric with a durable vinyl backing. Our storage solution features an assortment of five different storage pouches with internal storage compartments. The great Molle / Pals mounting system allows you to arrange the pouches however you wish, or grab them and go!

Tube Doors Cargo Covers	Part #
07-16 Wrangler	13247.01

DOOR LATCH SET

Door latches are included with half doors and tube doors, but are available separately for custom applications.

Door Latches, 07-16 Wrangler	Part #
Half & Tube Doors, Pair	11812.80

HALF DOORS

Rugged Ridge® Half Doors help keep the elements out while maintaining that open air experience. Our Half Doors are constructed of paintable, impact resistant, thermoplastic outer door skins mounted to rigid powder coated internal steel door frames. They feature lockable door handles, an internal storage pouch, waterproof seals, OE style hinges, and mirror mounts. Easily interchangeable with the factory steel doors and require no body modification for installation. Also available with optional upper soft doors.

- Impact resistant thermoplastic black ABS material with enhanced UV protection.
- Matte finish is easily paintable to match your Jeep®
- Specially reinforced internal steel frame provides strength and is powder coated to resist corrosion
- The textured inner ABS panels provide a finished look and feature a grab handle and storage pocket
- Each door has a weather tight seal to keep out moisture and reduce wind noise
- OE Style Hinges provide a factory look
- Durable and lockable paddle handle
- Matching soft upper doors available for all season protection from the weather
- Designed to work with OE mirrors or Rugged Ridge replacement mirrors

JESSE SPADE HUB-CENTRIC WHEELS

Jesse Spade, a skilled fabricator and designer from Atlanta with a heritage in the off-road and hot-rod industry, engineered this wheel for Rugged Ridge®. The new Jesse Spade Wheel from Rugged Ridge is offered in two finishes of satin black and satin gun metal. Offering the best styling and fit possible this 17x9 inch hub-centric wheel features a 5x5 inch bolt pattern, -12 mm offset, 4.53 inch backspacing, and 71.5 mm center bore. This wheel also features exclusive valve stem pockets which protect the valve stem from potential off-road damage. The Jesse Spade Wheel was built to deliver the handling that your rides performance requires while offering the best design and quality possible.

XHD ALUMINUM HUB-CENTRIC WHEELS *Available in 17", 18" & 20"*

Rugged Ridge® is proud to offer the toughest design in custom wheels for 07-16 Wranglers. This hub-centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. A better fit with no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face giving a great 3-piece look. You can also accessorize with our Rim Protector.

Available in five finishes: satin black powder coat, satin black powder coat with machined lip, silver powder coat, polished chrome, and gunmetal. The durable powder coat gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine.

Rugged Ridge wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Backspacing is 4.53 inch with a -12mm offset. Limited lifetime structural warranty and one year finish warranty (see warranty information for details and limitations).

New modular center cap design for the XHD wheels allows for multiple looks - full center cap or low profile. Patent Pending.

HEAVY DUTY TIRE SPACER

This Rugged Ridge® Heavy Duty Tire Spacer bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Features 5x4.5 inch and 5x5.5 inch wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-16 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50 inch or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier.

HD Tire Carrier & Spacer	Part #
07-16 Wrangler, Textured Black, Each	11585.02

CAUTION:

The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes.

BUY WITH CONFIDENCE
MINIMUM 5 YEAR WARRANTY

CAUTION!
CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

WHEEL SPACERS & ADAPTERS

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improved stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are ten pre-installed grade-8 wheel studs, ten lug nuts and a thread locker.

SPARTACUS STAMPED STEEL BUMPERS *New!*

The Spartacus Stamped Steel Bumpers from Rugged Ridge® feature a tough satin black powder-coated finish on a sturdy 11 gauge stamped steel construction. The stamping process allows for the most advanced styling on the market, creating a bumper lighter than most aftermarket steel bumpers and is designed to work with all popular winch models (winch plate sold separately). Uses factory tow hooks. Also available, the Spartacus Stamped Steel Front Bumper kit combines the heavy-duty construction and advanced styling of the stamped bumper and a black over-rider hoop which gives an aggressive look for your front bumper, and adds extra protection for your winch and grille. Patent Pending.

- Stamping process allows for most advanced styling in the market
- Stamping also allows for efficient use of materials resulting in a bumper lighter than most aftermarket steel bumpers
- Injection molded crush can covers add modern styling while keeping vehicle in factory specs (front bumper only)
- Stamped in knuckles strengthen vulnerable bottom edge while providing a rugged and tougher look
- Rear bumper accepts 7/8-inch D-Rings

SPARTACUS HD TIRE CARRIER *New!*

The Spartacus HD Tire Carrier System provides the ultimate in strength and stability for mounting your oversized wheel and tire. Functionally designed to manage the amplified force and vibrations produced during extreme off-road conditions, the precision die-cast aluminum Hinge Casting provides maximum strength without the excess weight of steel. The one-piece design maintains one-handed access to cargo area and rigidly links the Wheel Mount to the reinforced section of the rear quarter panel. This, in combination with forged steel hinge brackets and hardened steel pins, results in far superior load capacity than the factory tailgate hinges, thereby effectively reducing wear and increasing longevity. Independently tested and rated for up to and including 37" wheel tire combinations when Hinge Casting and Wheel Mount are used together. Includes adjustable third brake light bracket. Compatible with OE and most aftermarket rear bumpers. No drilling required. Patent Pending.

XHD MODULAR BUMPER SYSTEM

No other bumper can give your Jeep® this many looks. The modular design provides dozens of different looks and styles, you can build the exact bumper of your choice! Custom designed for the 2007-2016 Jeep® Wranglers, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coated steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look. Patent NOs 7,703,834 & 8,393,656 & 8,764,080

The XHD Storage ends are a great place to stow recovery gear and other valuables. Beefy steel construction, a watertight seal, and lockable lid helps keep mud and water out and your gear in.

THIRD BRAKE LIGHT EXTENSION

The third brake light extension kit from Rugged Ridge is the brake light solution JK owners have been waiting for. Our brake light extension kit is fully adjustable in 1" increments and works with the OE spare tire carrier and most aftermarket units as well. It is made from durable black powder coated steel. It moves the third brake light up above oversized spare tires from 33-inch to 42-inch. Off road antenna mount or sand flag mount integrated into design.

Third Brake Light Extension	Part #
07-16 Wrangler	11546.23

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? The Rugged Ridge Tire Carrier Linkage Kit eliminates this issue and makes accessing the cargo area quick and painless. Once installed, the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier. (Not needed with 11546.25)

Tire Carrier Linkage	Part #

XHD REAR BUMPER SYSTEM

Versatility has no limits with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. A special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Heavy Duty Tire Carrier and you can hold up to a 35-inch tire.

Rear Receiver Hitch, With Wiring Harness	11580.51

XHD GEN II SWING & LOCK TIRE CARRIER

Unlike previous designs, Rugged Ridge's GEN II Swing & Lock Tire Carrier maintains full mobility of the rear tailgate and eliminates the cumbersome two-stage opening process present in other designs. Using the factory latch mechanism and a reinforced spindle, Jeep owners have the ability to mount up to a 37-inch tire and operate both the carrier and tailgate simultaneously without any hassle.

XHD Tire Carrier, 07-16 Wrangler	Part #
GEN II Swing & Lock Tire Carrier	11546.25

XHD ALUMINUM REAR BUMPER PODS

Taking the lightweight theme further, we have developed steel inner framed Aluminum Rear Bumper Pods. These new lightweight pods still allow for over sized tires but take a huge chunk of weight out of the bumper. (The picture shows the rear pods installed with the enclosed steel D-rings for the XHD Rear Tire Carrier). Each pod can be used with tire carrier part #11546.25 to hang those 35-inch+ tires shown in picture with the optional center step. The XHD Aluminum Bumper Pods are approximately 40lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings.

Just How Light is the Aluminum XHD Rear Bumper?

Rear Bumper	Weight
Aluminum XHD - Standard Configuration*	43.45lbs
OE Plastic Bumper Cover	16.5lbs
Brand X Off Road Bumper	85lbs & Up

*Standard Configuration: Pods, Brackets & D-Rings. The optional Step adds an additional 6lbs.

XHD ALUMINUM BUMPER SYSTEM

XHD ALUMINUM BUMPER SYSTEM

The XHD Aluminum Bumper System was designed to be a whole new look while being extremely light weight allowing you to save on fuel and the need for front suspension spacers. The bumper is all aluminum but uses the current steel XHD D-rings. Each bumper comes with a built in top filler plate. Each new aluminum XHD has cutouts and mounting points for the factory fog lights and a great looking "Jeep® Style" front slat look that will make this bumper stand out. If you want to run a winch, simply remove the filler plate and attach the optional JK steel winch mounting plate. The XHD Aluminum Bumper is approximately 80lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings. Patent NOs 7,703,834 & 8,393,656 & 8,764,080

Just How Light is the Aluminum XHD Bumper?

ALL TERRAIN MODULAR BUMPER

Modeled after our XHD Modular Bumper System, but with the more budget-oriented consumer in mind, Rugged Ridge® set out to create an affordable yet strong and functional bumper system. The All Terrain Modular Bumper System is built from black powder coated steel and has a renewed focus on style and functionality, allowing owners to design and build a bumper to fit their specific needs. The new Double X-Striker is an option currently exclusive to the All Terrain Modular Bumper System. A unique feature of this bumper is that it can be upgraded from a non-winch to a winch bumper. A removable steel plate covers the winch area until ready to add a winch. All Terrain bumper options are not compatible with any of the XHD bumpers. Patent NOs 7,703,834 & 8,393,656 & 8,764,080

XHD ROCK SLIDERS W/ INTEGRATED STEPS *New!*

The innovative one-piece design is precision manufactured from CNC-laser cut 3-mm steel plate and finished with a tough black textured coating. Each Rock Slider also features an integrated four-inch step making climbing in and out of Jeeps easier, especially when its lifted. The XHD Rock Sliders are designed to function with most aftermarket and stock fender flares and are easy to install with no drilling required. To protect your vehicle’s finish, rubber gaskets are utilized to cover and protect the paint and body panels along the door sill areas.

07-16 Wrangler JK, 2-Door	11504.17

RRC SIDE ARMOR

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge® Side Armor. Built from heavy-duty 2 x 0.120-inch black textured powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge tubular tough duty side steps. Available in 3-inch round, 4-inch round, and 4.25-inch oval diameter sizes. The large 4.25-inch oval and 4-inch round tubes provide a much cleaner look and are not “dwarfed” by oversized tires and oversized body style features of the 07-16 Wrangler. Rugged Ridge Stainless Tube Steps feature primed 304L, .05-inch wall stainless tubing polished to a mirror finish. Rugged Ridge painted steel tube steps feature special E-coated, .07-inch wall steel that is “thick source” powder coated for a tough chip resistant finish. All Rugged Ridge tube steps feature a truly custom fit with installation brackets constructed of durable 3/16-inch powder coated steel for long life and years of flex-free use. Each tube step features special UV treated no-slip step pads with 5 mounting pins. All 07-16 Wrangler models are no drill designs.

LOCKABLE SPARE TIRE MOUNT BIKE CARRIER

This easy-to-use bike rack mounts to any emergency tire mounting studs. The bike rack carries two bikes directly off the spare tire. It is constructed of 2-inch powder coated steel tubing for maximum rust protection and durability. The bike clamp features rubber pads to protect your bike’s finish. The carrier comes with two keys for the locking mechanism. Fits wheel off sets from 2-5/8-inch to 6-inch. For all Jeep® outside spare tire applications.

Bike Carrier	Part #
Spare Tire Mount Bike Carrier, Each	11237.10

TUBE BUMPERS

JK STUBBY TUBE BUMPER

Rugged Ridge® has taken their industry leading Front Tube Bumper and re-designed the ends to make the ultimate high clearance off-road winch bumper. This unique design has a built-in winch mount and special cut-outs for the JK Wrangler factory fog lamps. Like our regular tube bumper, we have cut into the front tubing allowing the bumper to “hug” the front end of the Jeep®. Each bumper includes durable welded end caps and polished smooth welds for the ultimate in durability. NEW: special inside pre-coat eliminates any chance of interior rusting.

Stubby Tube Bumper	Part #
07-16 Wrangler	11561.12

FRONT TUBE BUMPERS

Rugged Ridge bumpers have been engineered to the industry’s most exacting specifications. All powder coated bumpers are “E-coated” to ensure a no rust finish and can take small rock chips and still maintain their rust protection. All Rugged Ridge front and rear bumpers feature smooth ground welds for an unbelievable look and further rust protection. This exclusive smooth grind process virtually eliminates small weld “pockets” that never seem to get full paint coverage and tend to rust over time. Need to mount a winch on your Jeep®? The winch mount version of the Rugged Ridge Front Tube Bumper features a built in winch mounting plate. Nothing extra to buy! Finally, all Rugged Ridge Bumpers feature welded end caps rather than plastic end caps.

OFF ROAD JACK MOUNT

JK Off-Road Jack Mount allows you to carry your off-Road jack on the outside of your vehicle saving precious cargo space. Fast and easy bolt on installation. Compatible with stock and most aftermarket rear bumpers (without tire carriers) as well as Rugged Ridge® XHD Rear Bumper with or without tire carrier. Bracket is sturdy and secures the jack in two locations to eliminate any vibration noise during vehicle operation. Durable textured finish looks great. Fits most off-road style jacks including Hi-Lift™.

Off Road Jack Mount	Part #
Off Road Jack Mounting Bracket, Hi-Lift Style, Wrangler 07-16	11586.01

OFF ROAD JACK ROLL BAR MOUNTING BRACKET

Get your Hi Lift style jack out of the elements with this roll bar mounting kit from Rugged Ridge. Storing your jack outside leaves it vulnerable to water, debris, ice and theft. These great new brackets allow you to secure your jack to the sports bar without sacrificing cargo area storage, and increase the longevity and function of your jack! The simple no drill installation allows for easy removal and storage of the jack.

Receiver Shackle Bracket	Part #
All 2-inch Receivers, Each	11234.01

LOW MOUNT

PRE-FILTER

XHD MODULAR SNORKEL

The Modular XHD Snorkel System from Rugged Ridge® relocates the venerable stock air intake location to help reduce dust clogged filters and the risk of hydro-locking your engine. It is also the first snorkel designed with the modular functionality of a Pre-filter Low Mount and Ram High Mount air intake design. Not only did we engineer our snorkel to allow the windshield to fold and doors to be removed, we built it for use with our dual battery tray, windshield light bar and windshield light mounting tabs... Because what good is having a snorkel to cross the river, if you have to leave your lights and the dual battery (to power your winch) on the other side? Note: Windshield light mounting tabs only compatible with low mount.

The Modular XHD Snorkel System comes standard with the Pre-filter Low Mount. The Pre-filter Low Mount relocates the air intake to just below the windshield and draws cool air from outside the hot engine compartment. The optional Ram High Mount design allows the air intake to be extended up an additional 21" to the top of the windshield. The two air intake mounts are easily interchangeable to give you the modular functionality best suited to your needs. The system is manufactured from premium thermoformed plastic, mandrel bent aluminum and hi-temp silicone connection hoses. Built in manual drain valves channel away excess water to prevent it from entering the intake system. It installs with minor modification to the fender, but without the major cutting and surgery that other kits require. The new lower air cleaner box installs in place of the factory unit, so you don't have to "hack and tap". Just attached the factory upper air box, chose from the Pre-filter Low Mount or Ram High Mount design and go! Patent #'s D687,071 & D687,072.

PERFORMANCE BY RUGGED RIDGE®

STAINLESS STEEL AXLE-BACK EXHAUST SYSTEM

Open up your Jeep®'s exhaust with this great looking & long lasting dual exhaust system. The 2 1/4-inch mandrel bent pipes give hot exhaust gases a smooth exit without the restrictions found in crush-bent pipes. This added flow decreases back pressure and will actually increase the horsepower of your 3.8L or 3.6L engine! This is a bolt-on system that installs after the catalytic converter to keep your emissions legal. The dual split exits feature slash cut and rounded oval tips. Each kit includes all necessary mounting hardware for an easy bolt on installation.

JK HEAVY DUTY OFF-ROAD MUFFLER

Designed to deliver a more aggressive tone than the stock muffler, the off-road muffler produces a deep tone throughout the RPM range. It is designed to sit as high as possible for extreme off-road ground clearance. The exhaust tip is designed to be protected by the body frame to reduce trail damage. Stainless steel and aluminized steel construction with Black hi-temp coating insures extended durability.

Heavy Duty Off-Road Muffler	Part #
07-16 Wrangler 2-Door & 4-Door, Kit	17606.70

EXHAUST SPACER KIT

Jeep® moved the exhaust forward on the 12-16 Wrangler. Unfortunately, on Jeeps with 2.5-inch or more of lift that means their front driveshaft is liable to make contact with the exhaust Y-Pipe melting the CV boot and causing the driveshaft to fail prematurely. The Rugged Ridge® Exhaust Spacer Kit for 3.6L Wranglers helps move the Y-pipe further back and increases the amount of front suspension travel from 2.5 to over 5.5-inch, thus saving your driveshaft. The spacers install on the flanges between the front headers and Y-pipe. The great thing is the kit is easy to install and does not require permanent modification to the exhaust. Hardware included. Backed by Rugged Ridge's exclusive five-year limited warranty.

Exhaust Spacer Kit by Rugged Ridge, 12-16 Wrangler (w/ 2.5-Inch + Lift)	17606.76

COLD AIR INTAKES

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Our dry filter design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs of torque.

THROTTLE BODY SPACER

The Rugged Ridge Throttle Body Spacer raises the throttle body 1/2-inch above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air, producing more horsepower and torque. Solid aluminum construction.

PERFORMANCE VENTED HOOD

(hood shown painted)

Inspired by Chrysler's aggressive SRT® designs, Rugged Ridge's Performance Vented Hood was engineered to provide 50 percent more ventilating surface area over similar designs, helping heat quickly escape from the engine compartment to maximize engine efficiency. Made from high quality stamped steel, the new Performance Vented Hood uses a factory inner core assuring it fits like the OE hood. In addition to fitting like a factory piece, Rugged Ridge® ships each of the hoods standard with a rust preventative E-coat that's ready to be painted. Uses factory attachment points and most aftermarket accessories will simply bolt into place. Got heat? You need this hood! Patent No. D718,682

ALL TERRAIN FLAT FENDER FLARES

Now, with the All-Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting flares are out-of-the-box ready to turn your street Jeep® into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a “lower center of gravity” making your JK more stable, with the necessary ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory flares, yet still maintain proper tire coverage. Constructed of a flexible UV treated high impact thermoplastic and easy to install by attaching to the mounting points with no drilling. The kit also includes mounting brackets that allow you to relocate and use the existing factory side marker lights.

HURRICANE FLAT FENDER FLARES

Jeep® enthusiasts can now get that aggressive off-road look with the newly designed Hurricane Flat Fender Flares by Rugged Ridge. This design was inspired by the 1941 Willys MA. The double bolt pockets provide a new modern twist to classic flares and come with two sets of durable corrosion resistant fasteners (stainless steel and black). Constructed of durable injection molded thermoplastic material, the flares rest high on the vehicle providing 2 inches more of extra clearance with an additional 1 inch of extra width for oversized wheels while on trails. Backed by an industry leading 5 year limited warranty, the Hurricane Flat Fender Flares will really set your JK apart from the crowd! Patent No. D712, 324

ALUMINUM HOOD CATCHES

The Rugged Ridge Aluminum Hood Catches were built as a strong direct replacement for the OE catches that degrade and fail after years of off-road abuse. Available in black powder coated and durable silver finishes, these hood catches incorporate an adjustable tension rod guaranteeing a precise fit. Installation is a breeze for any do-it-yourselfer with just basic hand tools. The catches were designed to be a bolt-on solution using the same mounting points as the factory hardware. Patent D692, 290

07-16 Wrangler, Each Chromed Aluminum, Locking	11425.04

HINGE TREATMENTS FOR HOOD & DOORS

These cast stainless design hinge treatments are guaranteed not to rust while providing a new tough look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side.

Stainless Hinge Treatment, 07-16 Wrangler	Part #
Hood Kit, Pair	11111.10
2-Door Kit, 4 Hinges	11113.05
4-Door Kit, 8 Hinges	11113.06

NOW AVAILABLE IN TEXTURED BLACK!

THE ONLY FLOOR LINER WITH PATENTED "DEEP TREAD" TECHNOLOGY!

Floor Liners Designed with Safety in Mind

- Perfectly contoured to your vehicle’s floor for precise, secure fit & protection
- Nibbed bottoms and floor hook keeps liners safely in place
- Exclusive self sealing floor hook attachment keeps moisture out while securing the liner (where applicable)

Chevron shaped raised pattern channels water and dirt away from shoes & clothing.

High perimeter wall provides maximum protection & water retention

Nibbed Bottoms

Injection molded soft compound creates a better fit for the small variations in individual vehicles

3/8" tread is 2-3 times the tread height of regular vacuum formed liners

Exclusive self sealing floor hook attachment keeps moisture out while securing the liner

Rolled reinforced edges provide added strength & finished look

⚠ WARNING

Unsecured front liners may shift, restricting pedal movement which may lead to loss of control. TO AVOID SERIOUS INJURY: Replace vehicle's floor anchor if damaged. Do not stack or use other liners or movable carpet under your Omix(r) liner. Read and follow all instructions and other warnings included with this product and within your vehicle owner's manual.

Custom fit cargo liners

ALL TERRAIN FLOOR LINERS

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the ‘old style’ liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle’s floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go! The mat actually reseals itself around the hook! Patents D627,285 & 8,163,369.

CUSTOM FIT NEOPRENE SEAT COVERS

Protect your Jeep’s interior with these Custom Fit Neoprene Seat Covers from Rugged Ridge®. These covers are constructed of durable 100% neoprene with no filler fabrics creating the best fitting, longest lasting neoprene seat cover available. Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you! Each cover is custom tailored for your Jeep’s original equipment seat style making your seats look like they have been recently reupholstered.

Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. All seams have been double reinforced for strength and a special backing fabric is used on the seams for added protection against rips and tears. Available in black on black, grey on black, red on black and tan on black to complement virtually any Jeep® interior.

C3 REAR CARGO COVER *New!*

A versatile Jeep® deserves versatile accessories. Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep. By protecting the carpet and plastic trim from damage, scratches, pet claws, dirt, and other debris, it'll stay looking pristine through all your daily tasks. No mess, no stress! A custom made and functional accessory for 2007 to current JKs, this unique design also allows for a pet friendly space, ideal for your pet to rest during long off-road trips. Featuring water resistant material, the split fold feature allows for 40-60 rear seat lowering, and provides coverage with your rear seat up, partially or fully lowered-- flexible and functional! A flip out cover flap keeps dirt from falling into the rear tailgate door gap. The built-in front curtain wall helps to keep items and pets from entering the front seat area. A unique side retention system insures the cover stays securely in place as you load or un-load. Easy to install and remove so you get protection when and where you need it.

CENTER CONSOLE ARMREST PAD FOR 11-16 WRANGLER

This easy to use arm rest pad from Rugged Ridge provides protection and comfort all in one! Constructed of heavy duty neoprene (wet suit material) with an added layer of padding for the arm rest, this slip on cover provides an extra soft place to put your arm while driving. Since it covers the entire top of the arm rest, this cover also provides added arm rest protection from pet claws, dirt and sticky fingers. Installation is easy with an elastic band; no drilling or tools required.

CB RADIO MOUNT

The Rugged Ridge® CB Radio Mount offers you this easy to install solution. The CB Radio Mount conveniently mounts over the rearview mirror for an easy reach. Made from durable black powder coated steel, now your CB is attached high and within reach without having to take your eyes off the road or trail. Minor drilling required for 07-10 JK Wrangler, no drilling required for 2011-16 Wrangler.

CB Radio Mount	Part #
07-16 Wrangler	11503.95

RUGGED RIDGE OVERHEAD STORAGE CONSOLE

The Rugged Ridge Overhead Storage Console instantly turns the area underneath your top into usable storage space without any interference or modification to your Wrangler. Works with soft tops, hard tops, the top up or down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded high-density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad secures to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5 x 2.5 x 6.5 inches and offers more than 450 cubic inches of storage.

Rugged Ridge® Overhead Storage Console	Part #
07-16 Wrangler	13551.14

TRAIL BAGS

These soft-side Trail Bags feature heavy canvas construction and oversized zippers. Great for carrying recovery gear, spare parts, camping gear, clothes, or any other necessity for a wheeling trip. Rugged nylon straps keep the bags in place during even the most insane wheeling. Make the most out of your sport bars with a full complement of Rugged Ridge storage bags. These bags are easy to install and remove and work with both hard and soft tops.

ALL WEATHER 12' CABLE REMOTE INCLUDED FOR ALL WINCHES

ALL RUGGED RIDGE® SYNTHETIC WINCHES INCLUDE AN ALUMINUM HAWSE FAIRLEAD

WARNING Failure to follow these instructions could lead to severe injury or death. Consult further WARNINGS/CAUTIONS and instructions in this use/installation manual. Due to loads involved, all winching involves significant risks. To minimize risks of injury Always:

- Assure winch, mounting, cable and hook are undamaged. Vehicle, slope and conditions should not approach maximum rated pull. Leave a safety margin.
- Use supplied hook strap when spooling in or out (no load). Use gloves and keep fingers and body clear of hook, cable and fairlead during installation and all winch operations.
- Position operator inside vehicle when possible with control switch routed through window rather than door jam. Keep others a safe right angle from cable and vehicle when winching (min. 1.5 times distance of cable). Use greatest cable length possible while keeping at least five turns around spool. • Fully engage clutch before powering cable in. Do not disengage or adjust clutch while under load. Pull in stages to avoid heat buildup and motor damage. • Never use vehicle recovery winch for persons or as hoist.

WINCH & RECOVERY

DUAL BATTERY RELAY KIT

The Rugged Ridge Dual Battery Relay Kit is the perfect companion to the Rugged Dual Battery Tray. This relay kit allows you to connect two batteries to your electrical system. The last thing you want when you're out on the trail or headed to the beach is a dead battery.

Dual Battery Relay Kit	Part #
07-16 Wrangler	17265.01

DUAL BATTERY TRAY

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. The Rugged Ridge Dual Batter Tray is a great way to combat that strain to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powder coated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included.

Dual Battery Tray	Part #
07-11 Wrangler	11214.53

MINIMUM 5 YEAR WARRANTY

SYNTHETIC WINCH ROPE

Rugged Ridge® Synthetic Winch Ropes combine two key elements that makes it the choice of off road vehicles everywhere. Our ropes are both lighter and stronger than the traditional steel cables, so no more worrying about kinking or breaking steel strands. Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength and a power to weight ratio unmatched by wire rope. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries. Synthetic winch lines are easier to unspool, making recovery easier. Each synthetic rope comes with a protective sleeve that prevents it from overheating on the winch drum and includes a chafe guard to protect the rope from abrasion, a black powder-coated latch hook, and a stainless steel thimble. *Requires aluminum hawse fairlead.*

Synthetic Winch Rope, each	Part #
Blue, 11/32" x 100'	15102.10

JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Oversized 2-inch textured black tubing attaches to your windshield mounts with no drilling. Each light bar has five light tabs for use with Rugged Ridge® lighting options (fits up to five 7-inch lights). Each light bar has been specially developed to work with Rugged Ridge light mount brackets and/or mirror relocation brackets. *Lights not included.*

LIFT KITS

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-16 JK Wranglers, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

Rugged Ridge® 2.5"-3.5" Coil Spring Lift - With shocks

The most complete kit available on the market for JK.

- Includes four powder coated and E-coated 5160H hot rolled bar, and 5/8 inch coil springs that are set to factory rates, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Four Door JK's will get on average a 2.5 inch lift. Two door models will get up to a 3.5 inch lift.

Rugged Ridge® 4"-5" Coil Spring Lift - With shocks

Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!

- Each kit includes a rear track bar brace to strengthen the original track bar mount.
- Kit includes sway bar disconnects for more articulation off road.
- Uses tough, over built extended control arms for added strength and performance.
- In most cases control arms are longer than factory to adjust for caster.
- 4-Door JK's will get on average a 4 inch lift. Two door models will get up to a 5 inch lift.
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4 inch or greater lift kit on a four door Wrangler. A new drive shaft will be required on any 2007-16 2-Door Wrangler due to the shorter wheel base.
- All 4 inch Kits require a drop pitman arm (Part# 18006.55)

WARNING

07-16 Jeep® Wrangler JK/Rubicon, 4WD (2 & 4-Door models)

	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size HxWxD	Max Wheel Offset	Est. Install Time (hours)
2.5-3.5 inch Spacer Lift Kit	18401.50	18415.50	34"x12.5"x16"	4.5"	6
4-5 inch Lift*	18401.60	18415.60	35"x12.5"x16"	4.5"	8

Note: due to vehicle weight, the 2-Door models may receive an additional 1" lift over 4-Door models

* Will require a drop pitman arm 18006.55. Sold Separately

18401.50 Kit includes: (4) coil springs, rear track bar bracket, rear bump stop bracket, rear track bar brace, hardware kit

18401.60 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, (2) rear bump stop spacers, front track bar bracket, rear track bar bracket, (2) front double disconnect end links, (2) rear extended sway bar end links, rear track bar brace, hardware kit

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge™ suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

RUGGED RIDGE® SHOCKS

Rugged Ridge uses only nitrogen charged gas shocks for all their kits. which provide a better ride both on and off road. By using a Rugged Ridge Lift Kit and matching gas shocks, you optimize the suspension’s capabilities giving you a better ride both on and off road.

- Shock features include:**
- 150 PSI pressurized nitrogen gas
 - Internal valving - the internal orifice will rotate when the piston moves more than 2” automatically adjusts to make the ride as smooth as possible
 - Twin tube construction to lower heat build up and protect the shock from off road damage
 - Bonded iron 14mm piston with extra chroming - provides for a longer, rust free life
 - Includes polyurethane bushings
 - Limited lifetime warranty on the shocks

COLORED SHOCK BOOTS

These durable Rugged Ridge Shock Boots keep mud and debris from prematurely ruining your shocks while maintaining a stylish look. Works on ORV™ Nitrogen Shocks and most other brands as well!! Sold individually.

Shock Boots	Part#
Black, Universal Application	18479.50
Red, Universal Application	18479.51
Blue, Universal Application	18479.52

STAINLESS STEEL BRAIDED BRAKE HOSES

Rugged Ridge Braided Stainless Steel Brakes Hoses feature a tough stainless steel braided outer cover with a flexible teflon inner core that withstand trail hazards better than OE rubber hoses. They provide up to four inches of additional length over stock hoses, a must for any lifted vehicle! These brake hoses also improve braking performance so you won’t suffer from a soft brake pedal caused by OE rubber hose expansion. Meets or exceeds DOT FMVSS-106 regulations. .

Stainless Steel Braided Brake Hoses	Part #
Kit, Front and Rear Hoses, 07-16 Wrangler	16734.10

STEERING STABILIZERS

Rugged Ridge recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeeps. The Rugged Ridge Steering Stabilizer dampens out the roughness of the highway minimizes and the vibration from running larger tires and wheels. Rugged Ridge Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

ORV™ Steering Stabilizers	Part#
Hydraulic Series, 07-16 Wrangler 2 & 4-Door	18475.03

ALLOY USA® AXLE TUBE SEALS

Keep water, mud and debris from entering your front axle housing. These CNC machined aluminum housings feature two seals to provide double protection from the environment.

Replacement Rubber Inner Seal For 11105 and 11106	11109	-

HEAVY DUTY BALL JOINT KITS

Big tires will accelerate wear on factory ball joints, which can lead to death wobble. Alloy USA has the solution with these new Heavy Duty Ball Joint kits for the 07-16 JK Wrangler! Constructed of steel for greater strength and hardness to minimize wear. Includes low-profile Zerk fittings for regular maintenance, a feature not available with the factory original style. Features an exclusive threaded preload system to ensure precise tolerance for prolonged ball joint life and precise steering.

Ball Joint Kit, 07- 16 Wrangler	Part #
Ball Joint Kit, Front, Heavy Duty, Includes 2 Upper and 2 Lower	11800

ADJUSTABLE TRACKBAR

This Rugged Ridge® Heavy Duty Adjustable Track Bar helps bring your axle back to being centered under your Jeep after being lifted.

Adjustable Trackbar	Part #
Adjustable Trackbar, 07-16 Wrangler	18205.08

RELOCATION BRACKETS

Relocation Brackets, 07-16 Wrangler	Part #
Parking Brake Relocation Bracket	18303.60

Track Bar Relocation Bracket, Front	18305.21
Brake Line Relocation Bracket	18305.23
Front Brake Line Relocation Brackets	18305.24

FRAME BRACE KIT

The heavy duty Frame Brace Kit from Rugged Ridge has been designed to reduce front end movement and shimmying on lifted JK Wranglers. The frame brace includes a trackbar drop bracket to help maintain the proper steering geometry. The kit is recommended on any JK Wrangler with 3 inch or more of lift and an adjustable trackbar. Welding is required for installation.

Frame Brace Kit	Part#
07-16 Wrangler, Frame Brace Kit	18205.25

See Safety Warning on Page 101.

INVERTED DRAG LINK

The Rugged Ridge Inverted Drag Link is designed to restore the steering geometry on lifted Wranglers. The re-designed drag link is inverted or flipped up over the knuckle to increase ground clearance and reduce bumpsteer. This part may reduce the need for a drop pitman arm. NOTE: a 13/16 inch drill bit is required for installation.

Inverted Drag Link	Part#
07-16 Wrangler, Inverted Drag Link	18205.26

DROP PITMAN ARM

This Rugged Ridge® drop pitman arm helps reduce the angle of your drag link reducing the bumpsteer created when a 3.5-inch to 6-inch suspension lift is installed.

Drop Pitman Arm, 07-16 Wrangler	Part #
Drop Pitman Arm, Power Steering	18006.55

WARNING See Safety Warning on Page 101.

CV EQUIPPED DRIVE SHAFTS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. constant v elocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

CV Equipped Drive Shafts	Part #
07-16 Wrangler, Rear 4-Door	16592.20
12-16 Wrangler, Rubicon Models, Rear 4-Door	16592.23

ABS TONE RING

When your ABS tone ring needs replacing, it results in the ABS light illuminating and the ABS pulsing continuously. This ABS tone ring from Alloy USA offers the perfect direct replacement for those that crack over time due to fatigue and/or rust and corrosion.

ABS Tone Ring	Part #
07-16 Wrangler	11320

FRONT SKID PLATE

Constructed of durable 1/4-inch powder coated steel with a rust resistant E-Coating, this skid plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge® front bumpers or all factory front bumpers. This skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. The easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

Front Skid Plate for 07-16 Wrangler	Part #
All RR bumpers, all factory original bumpers	18003.30

HEAVY DUTY SKID PLATES

Our heavy duty skid plates are constructed of durable 3/16-inch thick black powder coated steel, and mount to existing body holes using the factory hardware. They are engineered to protect the most valuable area's of your Jeep's underside, and help protect you from whatever the trail throws at you!

Heavy-Duty Skid Plates	Part #
Engine & Transmission Skid Plate, 07-11 Wrangler (A)	18003.50
Engine & Transmission Skid Plate, 12-16 Wrangler (A)	18003.51

JEEP® AXLES & PARTS BY ALLOY USA®

Alloy USA® axle shafts and ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world’s roughest terrain for over a decade. As a member of the Omix-Ada® group of companies Alloy USA® will provide the service and support you demand! Our dedicated team of engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

FRONT AXLE KITS
COMPLETE INNERS/OUTERS WITH U-JOINTS & CLIPS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40 percent stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA’s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

Front Axle Kits	Part #	Inner	Outer

DIFFERENTIAL COVERS

BOULDER ALUMINUM DIFF COVERS *New!*

The new matte black Boulder Aluminum Differential Covers are constructed from A356-T6 cast aluminum for strong impact resistance and feature a precision machined sealing surface, allowing gaskets or RTV sealant to be used for a leak-free seal. The Boulder Aluminum Differential Covers come complete with a magnetic drain plug for protection against costly damage from metal particles that can accumulate in gear oil. Also includes a specially designed dipstick bolt to help Jeep® owners avoid under or overfilling their differentials.

Boulder Aluminum Differential Covers	Part #
Dana 44™	16595.12
Dana 30™	16595.13
Dana 35™	16595.14

HEAVY-DUTY DIFFERENTIAL COVERS

Made from 3/8-inch cast steel, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle.

ALLOY USA DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8 inch cast steel or 5/16 inch stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy installation.

Alloy USA Differential Cover	Cast 3/8" Steel	Stamped 5/16" Steel
HD Dana 30™	11206	11200
HD Dana 44™	11202	-
HD Dana 60™	11207	11203

For more differential covers see Pg. ###.

FRONT AXLE X-JOINT

The heavy-duty X-Joints are a direct replacement for the factory U-joints and are manufactured from 8620 case hardened alloy steel. Alloy USA® has incorporated a number of design features to ensure the joints stand up to the stresses of off-roading. Each of the X-Joint's forged bearing caps feature an individual grease Zerk fitting for quick, easy and complete lubrication. In addition, triple ridge seals help keep out dirt and contaminants to maximize joint life. Each X-Joint comes complete with four 360-degree retaining clips, four 180-degree retaining clips and four grease Zerk fittings.

KEEPING THE JEEP® LEGEND ALIVE

Omix-ADA®, Rugged Ridge® and Alloy USA® are dedicated to preserving the Jeep® history. Over the past years great efforts were placed in finding Jeeps that were and are significant to either the Jeep brand or the off-road hobby.

The growing collection of over 30 Jeeps provides access to vehicles for continued product development, which is one of the driving factors for the growth of the Omix-ADA brand.

With the collection spanning from 1940 through today, it is a constant reminder of where we have been and where we are going.

RUGGED RIDGE ELITE DOOR HANDLE INSERTS

Arriving in late Spring 2016 the Rugged Ridge Elite Door Handle inserts are surely going to set your Jeep® apart. These cast aluminum inserts will be available in a satin textured black or brushed aluminum with additional versions coming later in 2016. These inserts install with ease and are secured with double-sided 3M automotive tape. No sharp edges result in a comfort-fitting install. Available for both 2-Door (3-piece kit) and 4-Door 07-16 Jeep Wrangler (5-piece kit).

BALLISTIC SEAT COVERS

Arriving late Spring 2016, Rugged Ridge Ballistic and Ballistic-Pro seat covers for 07-16 Jeep® Wrangler JK. Our latest addition to the interior protection program, are these unique ballistic weave fabric front and rear seat covers. Available in two version, a strong 800 Denier (Ballistic) and a heavier duty 1200 Denier (Ballistic-Pro). The rear seat cover allows you to maintain the 60/40 fold down function while still providing the added protection of the Ballistic or Ballistic-Pro Seat Cover.
